

## Stuttgart

# Architect (m/f/x) for project management

### Who we are looking for

We are looking for experienced colleagues for challenging projects in the fields of sports facilities, educational, cultural and administrative buildings, among others, who will support us in the field of architecture with great pleasure in designing but also in managing the projects.

### What your tasks are

- Independent handling of projects with high demands on design, adherence to deadlines and cost certainty
- Management and organisation of the project team
- Developing and implementing sustainable and innovative concepts for architecture
- Communication and contact person for our clients and internal project team members
- Communicative collaboration in interdisciplinary teams

### What we are looking for

- Several years of professional experience in planning and project management
- the ability to continue architectural quality down to the carefully planned detail
- Expertise in the development of complex design concepts with a focus on social, ecological and economic issues
- Confidence in design and commitment to the task
- good knowledge of Vectorworks, Revit, Asta and Avanti
- Business fluent in German

### What we offer you

- Responsible and exciting job with very good development opportunities
- a long-term perspective
- Modern planning methods and autonomous processes
- a collegial working atmosphere with flat hierarchies
- a permanent, full-time position - part-time is possible on request
- the opportunity to lease a company bike from the office

Send us your application to [Bewerbungen.Stuttgart@asp-architekten.de](mailto:Bewerbungen.Stuttgart@asp-architekten.de) and tell us about yourself!  
We look forward to getting to know you!
